Welcome and Calling

Do you feel the urgency to understand immigration more deeply—and respond with compassion, truth, and action?

Whether you're navigating the system yourself, walking alongside someone who is, or simply longing to understand more, this series is for you.

We believe migration is not just a political issue—it's a spiritual journey. It affects who we are, how we live, and what we're called to do as a church community.

Join us for a four-part workshop that combines story, reflection, and action—rooted in faith and focused on love, justice, and welcome.
